

Brightwater Club Property Owners Association

The 2023 Annual Meeting of the Homeowners
Held Saturday, January 7, 2023, at 4:00 pm
The Creekside Clubhouse & Grill, 530 Cotton Ranch Dr, Gypsum, CO

MINUTES

1. Call to Order, Declaration of Quorum, Proof of Notice: The meeting was called to order at 4:05pm by Board President Don Janklow.
 - a. With more than 10% of lot owners present in person, on the phone, or by proxy, a quorum was met.
 - b. Board Members Present: Don Janklow, Inga Causey, Josh Kroot, and Don Jennings
 - c. Lot Owners Present, with Proxy, and Not Present are listed at the end of the minutes.
 - d. Others present: Eric Weaver and Erin McCauley with Marchetti & Weaver (association accounting) and Matt Hayden with Elevated Colorado (property liaison)
2. Consideration of the Agenda: The order of the agenda was altered to move the Board Elections after the Community Reports.
3. Member Education: Eric Weaver explained the makeup of the association as 310 platted properties in the Association and that if you purchased a lot in Brightwater Club, you automatically became part of the Association. Every lot gets one vote. He also explained that most of the information for the Association can be found on the Brightwater website and encouraged owners to reach out to the community liaison , Matt, with the management company, Elevated Colorado, with any questions they might have.
4. Meeting Minutes Approvals: Review and Approval of the January 8, 2022, Annual Meeting and February 11, 2022, Continued Annual Meeting Minutes
-Upon a motion duly made and seconded, the owners unanimously approved the 2022 Meeting Minutes for both the Annual and Continued Annual Meetings.
5. Reports:
 - a. Community Liaison- Elevated Colorado Management Services, Matt Hayden
 - i. Matt reported that the North Gate exit has been repaired
 - ii. All streets, developed or not, are now being cleared of snow for access to the lots
 - iii. The Land Trust said that BWCPOA is doing a good job of taking care of the open space and wetlands west of the neighborhood
 - iv. A few street lights have had the bulbs replaced in the fall and one lantern fell and is being repaired
 - v. Communications will continue and occur mostly by email
 - vi. And lastly, Matt encouraged all owners to keep their contact information up to date so that they can continue to receive news from the POA
 - b. Developer- Siena Development, Don Jennings
 - i. Don stated that Siena has 19 home designs in sketch
 - ii. The current plan is to begin with six homes to break ground being built in the spring

- iii. A marketing program is planned to launch soon around that time,
- iv. As the first six homes sell, the next group of houses will be built with the goal to be selling of houses as the market supports
- v. Announced desired amenities are to get the restaurant back up and running as well as to provide a gym/ fitness facility for owners to enjoy
- vi. Other desired amenities include activities for the owners with an on-site activity director for programs,
- vii. It is hoped that the golf course will be playable by July as a lot of work was done in preparation for this in 2022
- viii. Lastly, Don stated that they desire to create a community. Having residents that are connected makes the project a success and to help create this, he is open to discussions with owners to hear their desires, recommendations, or concerns about the continued development of Brightwater Club.

c. Financial & Budget- Marchetti & Weaver, Eric Weaver

- i. Eric stated that the association is in very good health and that Accounts Receivable look good.
- ii. The breakout of responsibilities was discussed. Eric reminded the owners that the roadways, Lake House, Cast-Off Cabin, and Entry Gatehouse are not association owned, and are developer owned. The history of the need to maintain the roads was discussed in the past and it was decided that the association would maintain them for the existing homeowners' use
- iii. The 2023 Budget was discussed
 - 1. Those present were reminded that the dues are paid annually for 2023 as they were in 2022.
 - 2. The operations budget was kept in alignment with prior years without any major increases. As the developer's plans move along in the future, the budget will continue to reflect the known upcoming needs of the Association.
 - 3. The reserve budget also is being kept in alignment with the expected short-term needs of the association. It is known that the fund will need to increase substantially as the neighborhood's developed areas continue to grow.
 - 4. The roads for example will eventually need to be resurfaced and this will cost significantly more than the fund currently has set aside. They are being addressed as needed with patching of buckling or sunken areas year-to-year.
 - 5. Annual dues are \$1,000 for 2023

6. Board Member Elections: Two Directors for a three-year term

- a. Michael Schneider and Inga Causey's seats are up for re-election
- b. Six nominees were received: Inga Causey and Michael Schneider ran again and new nominees were Wayne Conrad, Dominic DeMaria, Steve Garrison, and Maury Keller
- c. With more than 50% of the vote, Wayne Conrad and Maury Keller were elected to the board and replaced Inga and Michael.

7. Member Input and Comments:

- a. It was asked of the developer if the first six sketches have been submitted to the DRB for approval.
-Siena stated that they have not yet, but they expect to make those submittals soon.
- b. An owner wanted to know if the current sketches would be approvable under the existing DRB guidelines.
 - i. Don Jennings said that they were not yet, but it was mentioned that the DRB guidelines are in discussion for the changes necessary to make this possible.
 - ii. It was added by Eric that the DRB Guidelines recently went through a refresh and had it been known that the new developer was going to close on the purchase of the remaining BWC lot so soon, this process would have occurred in coordination with the new developer to be in alignment with their plans for the association.
 - iii. Additionally, it was mentioned by Don that it is Siena's plan to take over the DRB to make the process more seamless and easier for them to build.
 - iv. Inga stated that it is the board's intention to work with Siena as their success is the neighborhood's success, but that the needs of the association are the board's responsibility to keep in consideration too.
- c. An owner asked about the intention of the developer for the density of the association.
 - i. Don said that they plan to develop on all of their owned lots and that they will develop as the market supports them.
 - ii. This may mean some time frames have more houses under construction than others. There is no plan to further divide the existing platted lots to increase density.
 - iii. The goal is to build a luxury, high-end product; not to reduce property values, but to increase them with excellent construction and amenities.
- d. It was asked if Siena's plans included the development of lots with ADUs (Accessory Dwelling Units).
-These are currently not allowed by the Town of Gypsum and Siena does not plan to develop ADUs either.
- e. Siena was asked which lots they planned to develop.
-Some of their lots that are closer to the main entrance will likely be the first ones developed.
- f. Does Siena plan to reactivate the Club aspect as originally intended by the original developers of Brightwater?
- It is planned to be a private club with amenities dedicated towards that. What those will eventually have yet to be determined.
- g. An owner asked for details surrounding the possibility of the purchase of additional adjoining land to expand the neighborhood further.
 - i. Don answered that they are considering that, but that no additional land has been purchased and that these types of questions will be looked at in the future.
 - ii. It was also stated as a reminder by Eric that there are about 300 lots on the west side of Valley road and that there are over 200 on the other side. The west side of the road has the front nine holes of the golf course and the back nine were originally designed to be on the east side of the road. The infrastructure is all on the west side of the street currently. Only the irrigation for the golf course was run on the east side of the street. So

the east side will take more development to get it up and going when it grows to that point.

- h. It was asked how the roads were going to handle the increased traffic of heavier construction vehicles.
 - Eric stated that this was the type of thing that would have to be considered with future budgets and that the roads would continue to be maintained.
- i. Matt was asked about the sunken manholes along the roadways and if they are going to be addressed.
 - i. Matt stated that some streets have sunken manhole covers and others have raised ones.
 - ii. He said that these are considered for the annual repairs to the road if they get too sunken and cause pooling of water or too raised and become a hazard for snow plowing.
 - iii. In addition, the buckling and sinking of areas of roadways are considered too. The biggest offenders are addressed each year.
 - iv. Only a full resurfacing of the roads will address everything to the same standard, but this is unlikely until the construction of the neighborhood has leveled out in the future. Until then, these will all be addressed as needed.
- j. Matt was asked about the crack-filling projects that occur each year or so and if it was the expectation that they would be sealing the cracks where the roadway meets driveways.
 - Matt stated that his focus had been on the roadways themselves, but that for future crack filling projects, he would ensure that the sealing was occurring consistently throughout the neighborhood.
- k. A concern was raised that some of the street lights appeared to not be working after the Comcast crew had laid infrastructure in that area.
 - Matt encouraged all owners to reach out when they had a street light out and that they would be addressed quickly. If it was determined that the issue was more than a bulb, this would be taken care of too.
- l. An owner asked about their final DRB approval and what was a reasonable amount of time to expect the return of their deposits.
 - i. Matt stated that their request for the final inspection was very recent and that, unfortunately, the challenge the DRB was having was that the request had occurred after there was snow on the ground. This was the cause of the delay as the ground coverage was a part of what needed to be inspected and it could not be completed at this time.
 - ii. Matt additionally stated that he had received the owner's submitted pictures of the ground coverings in the summer and had passed those onto the DRB.
 - iii. Lastly, Matt said that the DRB was trying to consider the specifics of the request, and given the challenges, was hoping to bring forward a proposed solution soon.

8. Adjournment of the Annual Meeting: With no additional association business to discuss, the meeting was adjourned at 5:56pm.

2023 Board of Directors:

Don Janklow (expires 2024), Don Jennings (expires 2025),
Josh Kroot (expires 2025), Wayne Conrad (expires 2026), and Maury Keller (expires 2026)

Meeting attendance: (Fx= filing number, then lot number, & address if assigned)
